In-Person Office Hours: by email appointment

Welcome
Welcome to the exciting world of Digital Marketing! I am so excited to teach this course because it is my passion to learn and teach consumer and firm behaviors in the digital world. In this course, you will learn state-of-the-art of digital marketing strategies and measurement.

Instructor Bio
To briefly introduce myself, I am an Assistant Professor of Digital and Social Media Marketing at University of Missouri-St. Louis. Since 2015, I have been teaching Digital Marketing Strategies and Measurement (MBA), Marketing and Business Analytics (MBA), and Marketing Analysis (Undergraduate). I am an active researcher, have been co-working with many professors from diverse universities, including UCLA, UT Dallas, UBC in Canada, Virginia Tech, California State University-Long Beach, California State University-San Francisco, Korea University, and Pusan National University in South Korea. My research interests include online word-of-mouth, online search, content analysis, pricing of online products, and advertising of experience products. I use econometric/statistical models and content analysis techniques to understand how companies’ marketing activities influence consumers in the real world. I have published at leading journals in marketing and business such as Journal of the Academy of Marketing Science, International Journal of Research in Marketing, Journal of Interactive Marketing, Journal of Business Ethics, and European Journal of Marketing. My research has been featured at various outlets, including Harvard Business School Working Knowledge, Forbes, Huffington Post, and The Globe and Mail. I was also invited by the Maeil Business Newspaper (South Korea’s leading business daily) to introduce my 2017 Journal of Interactive Marketing paper for practitioners. I am a recipient of the 2019 Emerald Literati Award and the 2019 Durand Award for Research Excellence. If you want to know more about my professional activities, please visit my home page.

Teaching Philosophy
I strongly believe that motivation is the key factor for successful learning. Therefore, I will do my best to motivate you to engage in the learning process. Considering that marketing is an applied discipline, I believe that students are best engaged when I can effectively link what is learned in the class to what is actually happening in the real world. I exploit various materials, including discussions about real-world problems and business news.
About the Course

Course Description
The internet presents unique challenges and opportunities for companies. This course aims to provide the theoretical as well as practical understanding of the Internet marketplace necessary to adapt to its many changes. The following topics are covered: (1) an overview of the digital industry landscape and online consumer behavior; (2) digital marketing strategies (e.g., paid search advertising, display advertising, search engine optimization) to communicate value to consumers; and (3) analytics to measure digital marketing effectiveness. This course uses three pedagogical tools to achieve the goal: (1) lectures that cover basic concepts and theories of digital marketing; (2) business cases that apply the concepts/theories to real-world online marketing problems; and (3) a business simulation game that focuses on digital marketing communication strategies and tactics.

Course Objectives
Upon completion of this course, students will be able to:

- describe recent strategic moves in the digital space (e.g., Google, Facebook, Amazon, and Apple) and explain their drivers, consequences, and implications.
- explain new consumer behaviors enabled by the internet (e.g., showrooming behavior, spread and use of electronic word-of-mouth) and develop strategies to cope with them.
- evaluate and build firms’ digital marketing strategies focusing on paid search advertising, display advertising, search engine optimization, and social media marketing.
- assess and demonstrate the complex interactions among marketing channels, online and offline.

Course Topics

This course consists of three topical parts.

Part 1: The Digital Industry and Online Consumer Behavior. It is important to understand the overall digital industry landscape and how consumers use digital technologies in their purchase processes. Part 1 introduces online consumer behaviors enabled by the internet and explores the recent strategic moves in the digital industry. We will study how firms use the internet to create competitive advantage (Week 1), how the internet has changed consumer shopping behaviors (Week 2), how consumers spread and use electronic word-of-mouth (e.g., user reviews) in their purchase journey and how the eWOM affects firms’ market outcome (Week 3), and how firms measure online consumer behaviors using various web metrics (Week 4).

Part 2: Digital Marketing Strategies and Tools. Part 2 explores various digital marketing tools that firms can use to communicate the value of their products and services to consumers. We will study how firms use paid search and display advertising to reach out to consumers (Week 5); how they use inbound marketing tools to attract (instead of reaching out to) prospective customers (Week 6); how firms engage with consumers on the social media (Week 7). Week 8 will introduce MIMIC Pro (the digital marketing simulation game used in this course); students will run the first two rounds of the simulation game in the week. In Week 9, we will study key components of viral marketing and learn how to make a marketing campaign viral. Finally, Week 10 will explore how firms can manage their reputations on the internet and how to respond to adverse rumors and fake news.
Part 3: Digital Marketing Measurement and Analytics. Measuring digital marketing effectiveness is important yet challenging. Module 3 focuses on digital analytics to better assess the effectiveness of digital marketing activities. We will learn a general tool to optimize digital marketing activities and apply it in the paid search advertising context to improve the paid search advertising effectiveness (Week 12). We will appraise the inherent complex interactions of different online marketing tools (Week 13). Finally, we will learn that online marketing activities do not work in silos but interact with offline marketing activities (Week 14).

In the last three weeks of the semester, we will review the course (Week 15), have the final exam (Week 16), and present the MIMIC Pro simulation (Week 17).

This is a Blended Course. What Does Blended Learning Mean? This blended course is designed to integrate asynchronous and synchronous online modes of learning to help you engage with the course content and other students to accomplish our course objectives. Each asynchronous and synchronous online component of our course will enrich your learning experience and provide you with opportunities for variation and practice, active learning and interaction with your fellow students. Your weekly session starts by studying the weekly lecture in an asynchronous mode. In the asynchronous session, you will watch my lecture videos that walk you through the lecture slides assigned in the week. This should be done before Thursday 6 pm, at which we will start our synchronous Zoom session. Our weekly synchronous Zoom session will start at 6 PM every Thursday and last about 1 hour and 15 minutes. We will spend the synchronous Zoom session discussing the assigned case in the week. We can also review the week’s lecture as necessary. For a detailed meeting schedule, please see the Course Schedule table in the syllabus. Thus, each week has two phases around the Thursday meeting: the before-class phase and the during-class phase. Each phase requires unique student activities.
Course Materials

- **Coursepack**: The course pack is essential for this course as it contains all the course materials (the course lecture slides, textbook\(^1\), industry and newspaper articles, and case study materials) except the MIMIC Pro simulation. The course pack is available for purchase at [https://hbsp.harvard.edu/import/790223](https://hbsp.harvard.edu/import/790223).

- **Digital marketing simulation game**: We will play a digital marketing simulation game (MIMIC Pro by Stukent) in the second half of the semester. Every student should purchase the license. The simulation link will be provided later in the semester.

Time Requirements for Our Blended Course:
This is an active, blended class with 1 Zoom weekly meeting complemented by online learning experiences in Canvas in between Zoom meetings. Our course is a 3-credit hour course and requires 3 hours of your time each week in addition to the time it takes you to read the required materials and and complete the assignments. That means that you need to plan to spend a minimum of 3 hours every week (up to 4 – 6 hours a week) on activities related to this course. If you would like to explore how the online Canvas activities work, please consult the [Online Canvas Overview course in Canvas](https://canvas.umsl.edu), where you can practice posting to a discussion board, take a practice quiz, and more.

Technology Requirements:
As a student in a blended course, you are expected to have reliable internet access almost every day. Please reach out to your academic advisor or student success network if you need hardware or access to the internet. If you have computing problems, it is your responsibility to address these through the ITS Helpdesk ([helpdesk@umsl.edu](mailto:helpdesk@umsl.edu)) or to use campus computing labs. Problems with your computer or other technology issues are not an excuse for delays in meeting expectations and missed deadlines for the course. If you have a problem, get help in solving it immediately. At a minimum, you will need the following software/hardware to participate in this course:

1. Computer with an updated operating system (e.g., Windows, Mac, Linux)
2. Updated Internet browsers ([Google Chrome (required)](https://www.google.com/chrome) or [Mozilla Firefox](https://www.mozilla.org/en-US/firefox/
3. Ability to navigate Canvas (Learning Management System)
4. Minimum Processor Speed of 1 GHz or higher recommended.
5. Reliable and stable internet connection.
6. [Adobe Reader or alternative PDF reader (free)](https://www.adobe.com/products/reader)
7. A webcam and/or microphone is [highly recommended](https://www.adobe.com/products/reader).

How to Succeed in This Course

This course is divided into 16 weekly sessions. The activities you need to complete will be inside each weekly folder with a clear outline of deadlines for each activity. Common weekly activities include studying the lecture videos and lecture slides and solving business cases with possible participating in discussion boards. You will also

---

have one exam and several written assignments. Please plan to complete assignments as early as you can to allow for any complications you may encounter submitting your work.

Assessment/Grading

Grade Composition
The course grade will be based on four individual and two group assignments.

- **Individual (70%)**
  - Attendance 5%
  - Case analysis executive memo 25%
  - Final exam 15%
  - Discussion board participation 20%
  - Peer evaluation 5%

- **Group (30%)**
  - MIMIC Pro score 10%
  - MIMIC Pro post-campaign report 20%

- **Discussion Board Participation**
  In most weeks, you will have a “before-class” discussion. Answer all the discussion questions by **Thursday 5 pm of the week**. To answer discussion board questions, you will need to watch the week’s lecture videos and read the assigned case. You can earn up to 6 points per discussion board participation. Collectively, the discussion board activities will account for 15% of your course grade. Refer to the grading rubric in the table below.

### Discussion Rubric

<table>
<thead>
<tr>
<th>Exceeds Expectations</th>
<th>Meets Expectations</th>
<th>Developing</th>
<th>Needs Improvement</th>
<th>Missing</th>
</tr>
</thead>
<tbody>
<tr>
<td>6 pts.</td>
<td>4 pts.</td>
<td>2 pts.</td>
<td>1 pt.</td>
<td>0 pt.</td>
</tr>
<tr>
<td>Use of analysis, synthesis and evaluation</td>
<td>Use of comprehension and application</td>
<td>Use of knowledge</td>
<td>No clear evidence that readings were understood or even completed</td>
<td>No postings throughout the week</td>
</tr>
<tr>
<td>Critical and/or creative contribution</td>
<td>Incorporates readings into responses, demonstrating solid understanding.</td>
<td>Repeats basic correct information related to discussion, but neglects to extend conversation or critically analyze course content.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Incorporates readings well into responses, demonstrating excellent understanding.</td>
<td>Exhibits some insights and understanding of course content, but may not ask critical questions of the readings or fellow students.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Asks questions that extend the discussion and relate</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Page 5 of 15
### Material to Prior Course Content
- Makes insightful, critical comments on the readings and to fellow students.
- Contributes new information and identifies the source.

### May Relate Module’s Issues to Prior Material Covered in the Course
- May respond to fellow students.

---

- **Case Analysis Executive Memo (Case EM)**
  For every case discussion, you will prepare a **one-page, single-spaced** memo. This assignment is designed to help you prepare for the case discussion by (i) summarizing the business environment the focal company is situated in and (ii) identifying the main issues facing the focal company. This is an individual assignment and should be **completed independently by each student**. **Submit the memo on Canvas by the noon of the class day.**

- **MIMIC Pro Post-Campaign Report (8 pages maximum, double-spaced)**
  After fishing the simulation, each team should write a post-campaign report that summarizes the campaign results as well as the lessons that you learned from the game. Each team should upload the post-campaign report on Canvas. This is a group assignment; only one submission is required per team.

### Grading Scale
The UMSL Grading System is based on a four-point scale. The grade value for each letter grade is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>D+</td>
<td>1.3</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
</tbody>
</table>

EX = Excused

Weekly Reading List

Week 1: Digital Industry Landscape
  (Case Study)

Week 2: Shopping in the Digital Era
  (Case Study)

Week 3: Electronic Word of Mouth
Syllabus: MKTG 5721, Spring 2021
Digital Marketing Strategies and Measurement

  (Case Study)

Week 4: Measuring Online Consumer Activities (Web Metrics)

Week 5: Outbound Marketing
  (Case Study)

Week 6: Inbound Marketing
  (Case Study)

Week 7: Social Media Marketing
  (Case Study)

Week 8: MIMIC Pro Introduction

² Will be provided by the instructor.
• MIMIC Pro User Manual

Week 9: Engineering Virality

Week 10: Online Reputation Management
(Case Study)

Week 12: Optimizing Sponsored Search
(Case Study)

Week 13: Marketing Resource Allocation

Week 14: Balancing Online and Offline

³ Will be provided by the instructor.
⁴ Will be provided by the instructor.
Course Policies

Participation
If you are unable to participate in the scheduled class activity or discussions, you must notify the instructor within the week of that class module or discussion. The instructor reserves the right to make judgment to accept and/or make-up assignments missed because of failed participation in the course activities.

- It is vitally important that our classroom environment promotes the respectful exchange of ideas. This entails being sensitive to the views and beliefs expressed during discussions. Please speak with me before recording any class activity. It is a violation of University of Missouri policy to distribute such recordings without my authorization and the permission of others who are recorded.
- I will not respond to each post but will be monitoring each discussion. I will check the discussion board twice a week: Tuesday afternoon and Thursday afternoon.
- Your success in this course will heavily depend on your ability to communicate, engage and participate in all course activities. Successful completion of this course requires that a student keep up with all assignments, coursework and discussions. Timely participation in online discussions is a very important part of this course and participation in these discussions, and other activities as assigned, is not optional. You are expected to prepare and post to discussions in a timely manner consistent with the requirements contained within the course syllabus.

Attendance Policies
- Present for the online component of our course is determined by participation in an “academically related activity,” i.e. submission of an assignment, assessment or discussion forum posting. The last day of attendance is the last day a student is academically participating in the blended course whether in-person or online as defined here.
- Documentation that a student has logged into the Canvas course site alone is not sufficient by itself to demonstrate academic attendance.
- Lack of attendance in-person or submission of work in Canvas could result in an automatic course drop.

Academic Integrity/Plagiarism
- You are responsible for being attentive to and observant of University policies about academic honesty as stated in the University’s Campus Policies and Code of Student Conduct found in the UMSL Bulletin.
- Academic dishonesty is a serious offense that may lead to probation, suspension, or dismissal from the University. One form of academic dishonesty is plagiarism – the use of an author’s ideas, statements, or approaches without crediting the source. Academic dishonesty also includes such acts as cheating by using any unauthorized sources of information and providing or receiving unauthorized assistance on any form of academic work or engaging in any behavior specifically prohibited by the faculty member (e.g., copying someone else’s answers on tests and quizzes). Unauthorized possession or distribution of academic materials is another type of academic misconduct. It includes the unauthorized use, selling or purchasing of examinations or other academic work, using or stealing another student’s work, unauthorized entry or use of material in a computer file, and using information from or possessing exams that an instructor did not authorize for release to students. Falsification is any untruth, either
verbal or written, in one’s academic work. Facilitation is knowingly assisting another to commit an act of academic misconduct. **Plagiarism, cheating, and falsification are not acceptable.**

- All instances of academic dishonesty will be reported to the Office of Academic Affairs, which will determine whether you will appear before the Student Conduct Committee for possible administrative sanctions such as dismissal from the university. The instructor will make an academic judgment about the student’s grade on that work in this course. The campus process regarding academic dishonesty is described in the “Policies” section of the Academic Affairs website.

**Online Class Netiquette/Behavior**

- **Be self-reflective** before you post an emotional response. Reread what you have written to be sure it is positive. Think of your comments as printed in the newspaper. Your online comments will be seen, heard, and remembered by others in the class.

- **Use effective communication.**
  - Avoid the use of all caps or multiple punctuation elements (!!!, ???, etc.).
  - Be polite, understate rather than overstate your point, and use positive language.
  - If you are using acronyms, jargon or uncommon terms, be sure to explain them so everyone can understand and participate in the discussion.

- **Ask for clarification** to a point if you feel emotional from a classmate’s post. It is likely that you misunderstood his/her point. This strategy will also help you step away from the intensity of the moment to allow for more reflection.

- **Sign your name.** It is easier to build a classroom community when you know to whom you are responding.

- **Foster community.** Share your great ideas and contribute to ongoing discussions. Consider each comment you make as one that is adding to, or detracting from, a positive learning environment for you and your classmates.

- **Be constructive.** You can challenge ideas and the course content, but avoid becoming negative online. When you disagree politely, you stimulate and encourage great discussion. You also maintain positive relationships with others with whom you may disagree on a certain point.

- **Keep the conversation on topic** by responding to questions, adding thoughtful comments about the topics at hand. Online dialogue is like conversation. If there is a certain dialogue going on, please add to it, but if you have something new to say, please post it in another thread.

- **Define your terms.** When using acronyms or terms that are particular to your field (or new to our course), please define them for others.

**Title IX Policies**

- **Mandatory Reporting:** Under Title IX, I am obligated to report any incidents of sexual harassment, sexual misconduct, sexual assault, or gender discrimination to the Student Affairs office and/or other University officials. This ensures that all parties are protected from further abuses and that victim(s) are supported by trained counselors and professionals.
Access, Disability and Communication
Your academic success is important. If you have a documented disability that may have an impact upon your work in this class, please contact Disability Access Services (DAS) immediately. Students must provide documentation of their disability to the office of Disability Access Services in order to receive official University services and accommodations. The staff is available to answer questions regarding accommodations or assist you in your pursuit of accommodations. Information about your disability is confidential. Once DAS reviews your medical documentation, they will provide you with the information and steps to inform me about the accommodations to which you are entitled. Your accommodations will begin as soon as we discuss your approved accommodations.

- 144 Millennium Student Center (MSC)

Technical Support
Online Mentor Program
Online education requires different teaching, learning, and technology skills than those found in traditional face-to-face classes. We assist students with the online technology in Canvas and provide resources for studying and success in online classes.

- 598 Lucas Hall
- Phone: (314) 516-4211
- Email: onlinementor@umsl.edu
- Website: http://www.umsl.edu/services/ctl/studentsupport/omp.html

Canvas
If you have problems logging into your online course, or an issue within the course site, please contact the Technology Support Center:

- Phone: (314) 516-6034
- Email: helpdesk@umsl.edu
- Website: http://www.umsl.edu/technology/tsc/

If you are having difficulty with a technology tool in Canvas, consider visiting the Canvas Student Guides, which has overviews of each tool and tutorials on how to use them.

If you continue to experience problems or just have questions, you can also contact the Learning Resource Lab:

- Phone: (314) 516-6704
- Email: lrl@umsl.edu
- Website: http://www.umsl.edu/technology/lrl/

Academic Support

The Writing Center
At the Writing Center, students collaborate with consultants on their writing. Students can make appointments to meet with writing consultants on campus, or to work online. Consultants work with lots of writing concerns: bigger issues such as clarity, developing ideas, and organization—or with other concerns such as grammar and academic citation. Students can also access more resources, including Turnitin, by enrolling in the Writing Center Canvas site.
